CONCLUSIONES

01

INTRODUCCIÓN

- PROBLEMA **COMÚN**
- **DIFÍCIL** DE TRATAR
- CONSECUENCIAS **FATALES**

¿QUÉ FACTORES **PROVOCAN** DEPRESIÓN EN LOS **ESTUDIANTES**?

¿**INFLUYE** EL **SEXO** O EL **NIVEL ACADÉMICO**?

¿PODEMOS **PREDECIR** LA DEPRESIÓN?

02

DATOS

- 18 ATRIBUTOS
- 27902 FILAS
- 56% HOMBRES Y 44% MUJERES
- PORCENTAJE DE DEPRESIÓN; 41% NO Y 58% SÍ

About Dataset

Student Depression Dataset: Analyzing Mental Health Trends and Predictors Among Students

Overview

This dataset compiles a wide range of information aimed at understanding, analyzing, and predicting depression levels among students. It is designed for research in psychology, data science, and education, providing insights into factors that contribute to student mental health challenges and aiding in the design of early intervention strategies.
